

To the Respected Attorney David Remes:

Greetings,

In the beginning I do apologize for not meeting with you due to the degrading and insulting search. I hope you can contact my family to tell them that I cannot call them because of the search. Please do tell them this because I don't want them to worry.

My whereabouts: I am on hunger strike and have lost a lot of weight, 45 pounds. My health has deteriorated and the situation in the prison is bad. I am in Camp 5 now. I met the female doctor on Wednesday 5/15/2013. She treated me very badly and even did not examine me herself but let the corpsman do this job then she sent me back to my room.

They took all my medical items that I had before. I haven't had an electric shaver for more than three months and unable to shave my hair.

Many incidents happened recently. A few days ago, the ERF team entered your client's room, Shaker Amer, and took him to the clinic. They cut his clothes and left him naked. Then they turned him right and left and made him wear tight clothes and sent him back to his cell.

I'll try to keep in contact with you. Thank you very much.

Your client,

Mukhtar Yahya Naji
